

LAUNCH CHECKLIST

BLOCKERS

Cannot launch without these.

0 / 8

These must all be ticked before you go live. Every other item depends on them.

**Business registration approved**

CIPC registration confirmed. Everything below this depends on it.

YOU TO DO

**PayFast merchant account created**

Apply at payfast.co.za after registration is confirmed. You will receive a Merchant ID and Merchant Key.

YOU TO DO

**PayFast credentials added to all 7 product pages**

Replace YOUR_MERCHANT_ID and YOUR_MERCHANT_KEY in each product page. Set PAYFAST_SANDBOX to false. Ask Claude to do this once you have the credentials.

CLAUDE CAN DO

**Price discrepancy fixed - R595 vs R450**

Product pages show R595. Inventory is set to R450. Decide which is correct and Claude will update the other side.

CLAUDE CAN DO

DECISION NEEDED

**Product photography done and uploaded**

New photos for all 7 products shot and replaced on the website. See the photography brief in the marketing plan.

YOU TO DO

**Website uploaded to Domains.co.za hosting**

Upload the website-output folder contents via cPanel File Manager or FTP. Make sure rollingtime.co.za resolves to the new pages.

YOU TO DO

CLAUDE CAN HELP

**SSL certificate active (HTTPS)**

PayFast requires HTTPS. Enable the free Let's Encrypt SSL certificate from cPanel under Security > SSL/TLS. Confirm the site loads on <https://rollingtime.co.za>.

YOU TO DO

**Full checkout tested end to end**

Complete a real test purchase on the live site. Confirm payment goes through PayFast, success page loads, and you receive a payment notification email.

YOU TO DO

BEFORE LAUNCH

Complete in the week before going live.

0 / 10

Not hard blockers but will hurt you if skipped.

**Meta Pixel ID added to all pages**

Create a Facebook Page, then go to Meta Business Manager > Events Manager > Connect Data Source > Web. Copy your Pixel ID and share it with Claude. All 14 pages will be updated in one go.

GET PIXEL ID

CLAUDE UPDATES PAGES

**Facebook Page created and populated**

Create a Facebook Page for Rolling Time. Add profile photo, cover photo, bio, website link, and at least 3 posts before launch day.

YOU TO DO

**Instagram account created and populated**

Set up the account, switch to a Business or Creator account, add the website link, and post at least 3 pieces of content before launch.

YOU TO DO

**TikTok account created and first video posted**

Create the account, post at least 1 video before launch day. A process video or collection reveal works well as a first post.

YOU TO DO

**Welcome email SMTP password added and tested**

Open dashboard/config.json and replace YOUR_EMAIL_PASSWORD with your sales@rollingtime.co.za password. Test by submitting the popup on the website.

YOU TO DO

**Order notification email added to dashboard**

Get an email to sales@rollingtime.co.za whenever a new order comes in via the dashboard. Ask Claude to add this - takes about 10 minutes.

CLAUDE CAN DO

**Courier account set up**

Create a free account on Bob Go (bobgo.co.za) - easiest for small stores, compares rates across The Courier Guy, Pargo, and others. Test a quote for a Cape Town to Johannesburg shipment.

YOU TO DO

**Packaging sourced and ready**

Boxes, tissue paper, padding, and any branded inserts. Have enough stock to cover at least your first 20 orders.

YOU TO DO

**Business bank account linked to PayFast**

PayFast pays out to a linked bank account. Make sure this is set up in your PayFast dashboard so payments clear correctly.

YOU TO DO

**Inventory counts updated in dashboard**

Log into the dashboard and confirm the stock count for each of the 7 products matches what you physically have ready to ship.

YOU TO DO

GOOD TO DO

Strong launch but not critical.

0 / 8

These improve the experience. Tick them off as time allows.

**Sitemap.xml and robots.txt created**

Helps Google index the site faster. Ask Claude to generate both files.

CLAUDE CAN DO

**Custom 404 page built**

A branded page for wrong URLs that sends visitors to the collection. Ask Claude to build it.

CLAUDE CAN DO

**Payment success page polished**

The current page is minimal. A better version with next steps and a link to follow on Instagram would reduce post-purchase anxiety.

CLAUDE CAN DO

**Google Search Console set up**

Free tool that shows how Google sees your site. Set up after the site is live at search.google.com/search-console.

YOU TO DO

**Dashboard server deployed on hosting**

Currently runs locally on your Mac. For it to track live visitors and send emails, the Node.js dashboard server needs to be deployed. Ask Claude for options.

CLAUDE CAN HELP

**Low stock email alert tested**

In the dashboard go to Settings > Alerts and click Test Alert to confirm emails are reaching sales@rollingtime.co.za.

YOU TO DO

**First week of social content scheduled**

Captions are written. Have the first 3 posts per platform ready to go on launch day. Use Meta Business Suite to schedule Facebook and Instagram in advance.

YOU TO DO

**Legal pages reviewed and personalised**

Privacy, Terms, Returns, and Shipping pages are built and linked. Read through each one and confirm the details match your actual business setup.

YOU TO DO

ALREADY DONE

Completed and in place.

7 / 7

These are ticked automatically. Good work.

~~Website built – 7 product pages, collection, home, story, contact, wholesale~~

Full site with nav, footer, mobile responsive, and brand identity.

DONE

~~PayFast checkout code integrated on all 7 product pages~~

MD5 signature, form POST, sandbox mode. Credentials to be filled in once registration is done.

DONE

~~All 4 legal pages created~~

Privacy (POPIA), Terms (ECT Act + CPA), Returns, and Shipping. All linked in nav and footer.

DONE

~~Meta Pixel code added to all 14 pages~~

Placeholder YOUR_PIXEL_ID in place. Just needs the real ID swapped in once Meta Business Manager is set up.

DONE

~~Welcome email automation built~~

Triggers automatically on popup signup. Branded HTML email from sales@rollingtime.co.za. Duplicate prevention in place.

DONE

~~Analytics dashboard built~~

Orders, customers, ad spend, targets, discount codes, wholesale CRM, inventory, and low stock alerts all in one place.

DONE

Social media marketing plan and captions written

Instagram, TikTok, Facebook strategy, 4-week launch calendar, 15 captions, hashtag strategy, and AI image prompts. PDF available.
